

Shabeeb Hasan

Senior PHP / Laravel Developer: Laravel, REST APIs, AWS & SaaS

Karachi, Pakistan (UTC+5) · Contact via Upwork
shabeeb.baydot.net · github.com/shabeebhasan

PHP and Laravel developer with 14+ years of production experience. Three-year Laravel-on-AWS engagement (2018-2021), Laravel backend for a doctor-patient mobile app, and PHP with SAP integration for Dis-Connect in Germany (2024-2026). Top Rated on Upwork: 100% Job Success, \$200k+ earned, 133 projects, 71% of contracts from repeat clients.

Top Rated · 100% Job Success · \$200k+ earned · 133 projects · 4,900+ hours · 106 five-star reviews · 71% of contracts from repeat clients

SKILLS

AI / ML	OpenAI, Claude, LangChain, LangGraph, MCP, RAG, pgvector, Pinecone, PyTorch, TensorFlow, scikit-learn, YOLO, OpenCV, OCR (Tesseract, Google Cloud Vision)
Backend	Python, FastAPI, Django/DRF, Node.js, PHP/Laravel, PostgreSQL, Supabase, REST & GraphQL, OAuth, Docker, CI/CD, AWS (Lambda)
Frontend / Mobile	React, Next.js, TypeScript, React Native (native iOS/Android modules, C++ DSP)
Automation	n8n, Make, Zapier, Stripe, MailerLite, browser automation, AI agent tooling

SELECTED PROJECTS

Laravel Platform on AWS: 3-Year Engagement, Maintained and extended a client's production Laravel application on AWS for three years (2018-2021). Also built the Laravel backend for a doctor-patient mobile app: appointments, roles, REST API. PHP with SAP integration for Dis-Connect (Germany), 2024-2026.

Serverless Media & Data Pipelines on AWS, FFmpeg video encoding on Lambda, auto-scaling EC2 workers, S3/DynamoDB and API Gateway across 20+ AWS contracts since 2016, including enterprise ETL/ML on AWS delivered through Upwork's Talent Group.

Django at Scale: 21 Contracts for One Client, Full-stack Django/DRF product work across 21 separate Crowdbotics contracts (2019-2025), a 4-year Django interactive-forms engagement, and Django 5 powering francofunrewards.ca in production.

Behavioural AI Authentication Runtime, Mobile sensor-based continuous authentication (Python/FastAPI + One-Class SVM): live handoff detection, owner-evidence recovery, confidence scoring, production validation pipeline. Zero incorrect recoveries in final validation.

Franco-fun Referral Rewards Platform: live at francofunrewards.ca, Partner referral SaaS built end to end solo: React 18 + TypeScript, Django 5/DRF, PostgreSQL, Stripe. Architecture, schema, payments, deployment and production launch.

OCR Document Extraction API, Computer-vision OCR API (Tesseract + Google Cloud Vision) delivered for a client contract, cleanup, extraction and structured output from messy real-world documents.

EXPERIENCE

Independent Software Engineer, Upwork (Top Rated) (2015-present), 133 delivered projects for clients in the US, EU, Australia and the Gulf: AI apps, RAG systems, AI agents, SaaS platforms, computer vision and mobile.

Founder / Software Engineer, BayDot (2016-present), AI agents, voice AI and full-stack automation studio (baydot.net).

Software Developer, Dis-Connect (Germany) (2024 - 2026), PHP development with SAP integration for German enterprise clients.

Software Developer, Synapse Consulting (Earlier)

EDUCATION & CERTIFICATION

MPhil Computer Science (University of Karachi (2019-2021)

MS Intelligent Science, AI & MIS) IBA Karachi (2017-2018)

BE Software Engineering, University of Karachi (2012-2015)

Upwork Skill Certification, Python Development
