SUMMARY

React Native Developer with 14+ years in software engineering and multi-platform product delivery. Built and scaled consumer and business mobile apps with strong backend integration and release stability.

CORE SKILLS

React Native, Expo, JavaScript, TypeScript, Redux, Firebase, Supabase, REST APIs, Django APIs, Node.js, App Store Release, Play Store Release, Push Notifications, Performance Optimization

EXPERIENCE

Mobile Engineer — Behavioral Authentication PoC (Freelance)

2026 - Present

- Built an iPhone-first sensor capture and real-time inference flow (DeviceMotion / DeviceOrientation) with a FastAPI backend for continuous behavioral authentication.
- Implemented an owner / handoff state machine driving live authorization decisions in the mobile web app.

Full-Stack Developer — Referral & Rewards Platform (Freelance)

2026 - Present

- Built the React frontend and Django API for a referral and rewards platform, including referral tracking and user onboarding flows.

Full Stack Software Engineer, Crowdbotics

2019 - 2025

- Delivered mobile products using React Native with backend services in Django, Node.js, and MongoDB.
- Contributed to architecture and feature iteration cycles across multiple app products.

Software Developer, Synapse Consulting

2014 - 2016

- Worked on Android Java and iOS Objective-C projects alongside PHP Yii and Angular-based systems.

SELECTED MOBILE PROJECTS

- Insurance Claims Field App
- Agri Supply Chain Farmer App
- Beauty Booking Marketplace App
- EV Charging Mobile Experience
- Micro Lending Mobile System

EDUCATION

- MPhil in Computer Science, 2019 - 2021
- MS in Computer Science, 2017 - 2018
- BS in Software Engineering, 2012 - 2015
