Shabeeb Hasan

Voice AI and Messaging Integration Engineer

Karachi, Pakistan (UTC+5) | Remote
Portfolio

Engineer delivering voice-agent booking flows and messaging integrations around existing products. Experience includes a team contract on a voice AI recruiting platform, queued SMS delivery, synchronization and race-condition fixes, plus Android voice calling.

TECHNICAL SKILLS

Vapi | ElevenLabs | Twilio | Next.js | TypeScript | Supabase | BullMQ | Webhooks | SMS status handling | API integration

SELECTED PROJECTS

Messaging in a voice AI recruiting platform | Client team contribution

Built two-way SMS features, BullMQ queued delivery and status history; fixed duplicate sends and voice-session race conditions, and added applicant synchronization. Next.js and Supabase; client under NDA. Project evidence

AI receptionist and appointment booking | Portfolio implementation

Built inbound voice-agent booking and receptionist flows using Vapi, ElevenLabs and Twilio telephony. Project evidence

Android chat and voice calling | Client work

Built an Android/Java application with Sinch voice calls, Parse messaging, incoming-call controls and push notifications. Project evidence

LLM import and inference services | Client work

Built Python data import, transformation and inference microservices with unit, integration and component testing, Docker and GCP managed services. Project evidence
